community organizations during the  
first two years of operation

# The Foundation Mission

The VNA Foundation recognizes that local organizations require partnership and support to achieve our mutual goal of building strong and healthy communities within the North Penn region. To that end, the VNA Foundation of Greater North Penn continues to strengthen organizations which enhance and expand health and wellness opportunities within our community. Programs which increase health access, expand available health and wellness options for residents, and significantly impact the well-being of those residing in and around our Greater North Penn region, are a priority for this foundation.

Working closely with local nonprofits to build capacity, the VNA Foundation provides operational support, program support, and capacity-building grant opportunities for local organizations. Twice each year, the VNA Foundation receives applications for funding that aligns with the foundation mission, and continues to work in partnership on projects throughout the year which build strong collaborative relationships among local organizations.

*A dental access program to benefit low-income North Penn residents is the foundation's signature initiative, and operates successfully in partnership with Abington-Jefferson Health and the Montgomery-Bucks Dental Society. This program is completing its second year of operation and has touched the lives of over 200 residents in the North Penn region since its inception during last fiscal year.*
